

EXPANDING THE CARL GRANIERI ORCHESTRA

Your Choice of 10 to as many as 21 Musicians and Singers onstage
CREATE AN INCREDIBLE LOOK & SOUND THAT YOUR GUESTS WILL TALK ABOUT FOREVER

COOL & FULL - Our standard 10-piece instrumentation.

With this basic set-up we cover all the styles & bases. We can play everything from Top 40 to Classic Rock to Swing - full and hot.

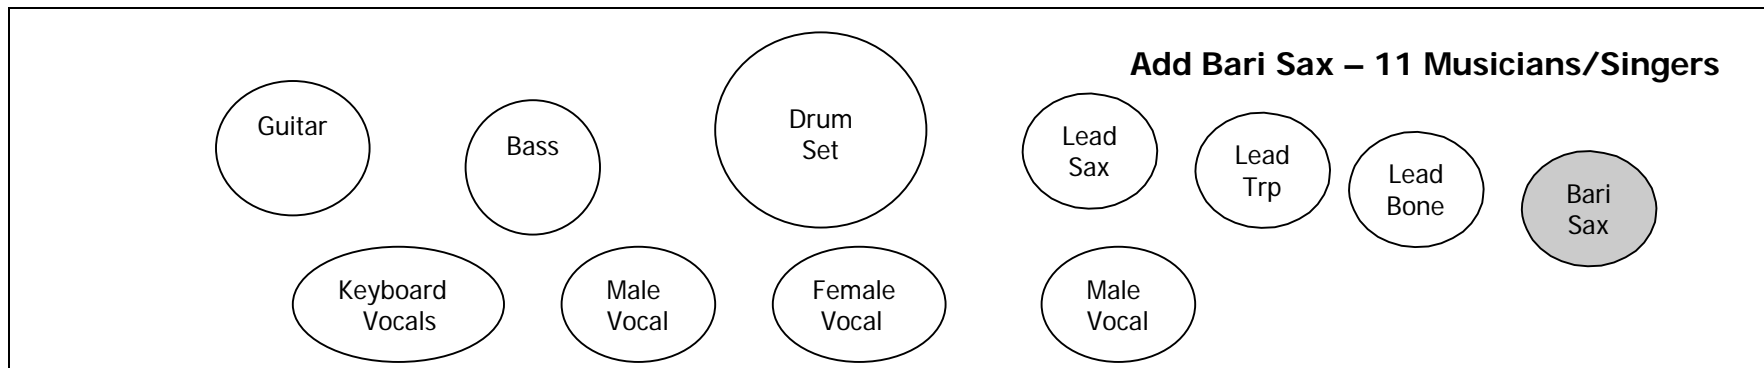

Adding Additional Musicians

OPTION #1 – ADD BARITONE SAX - *PUT THAT PHAT "BOTTOM" ON THE SOUND:*

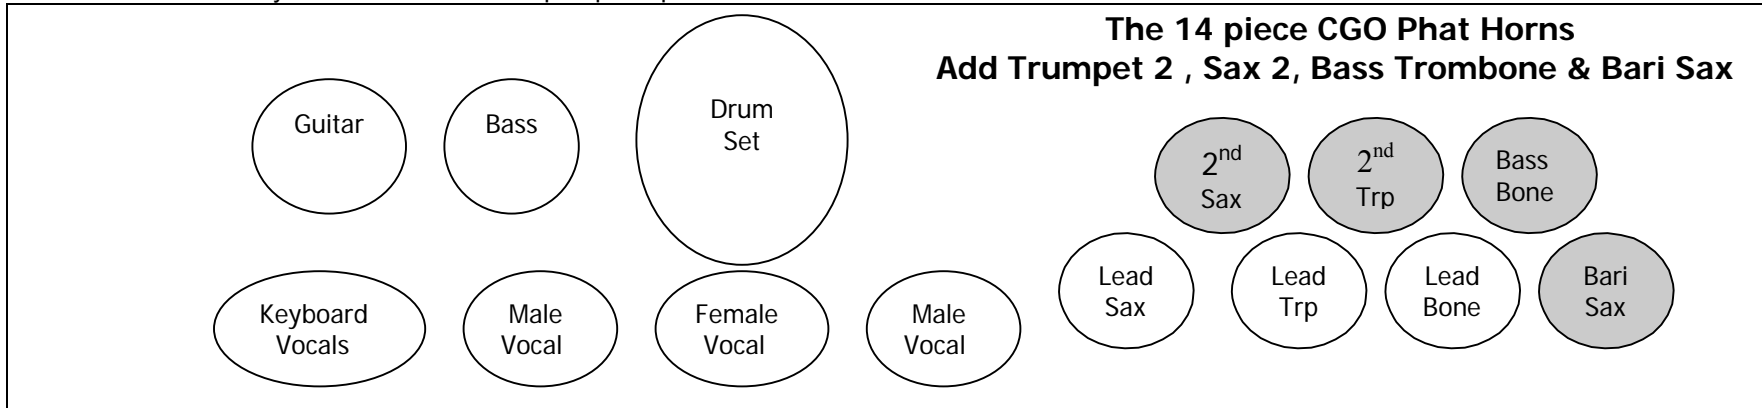

By adding a deep sounding Baritone Sax to the horn section, the whole band takes on a fuller sound.

The Sophisticated songs are richer, the pop songs are cooler and the funky songs are *way* funkier. If you can only add 1 extra piece, this is it.

LOVE THE HORNS ! – GO FOR THE BIG SOUND, OUR SMOKIN’ 7-PIECE HORN SECTION:

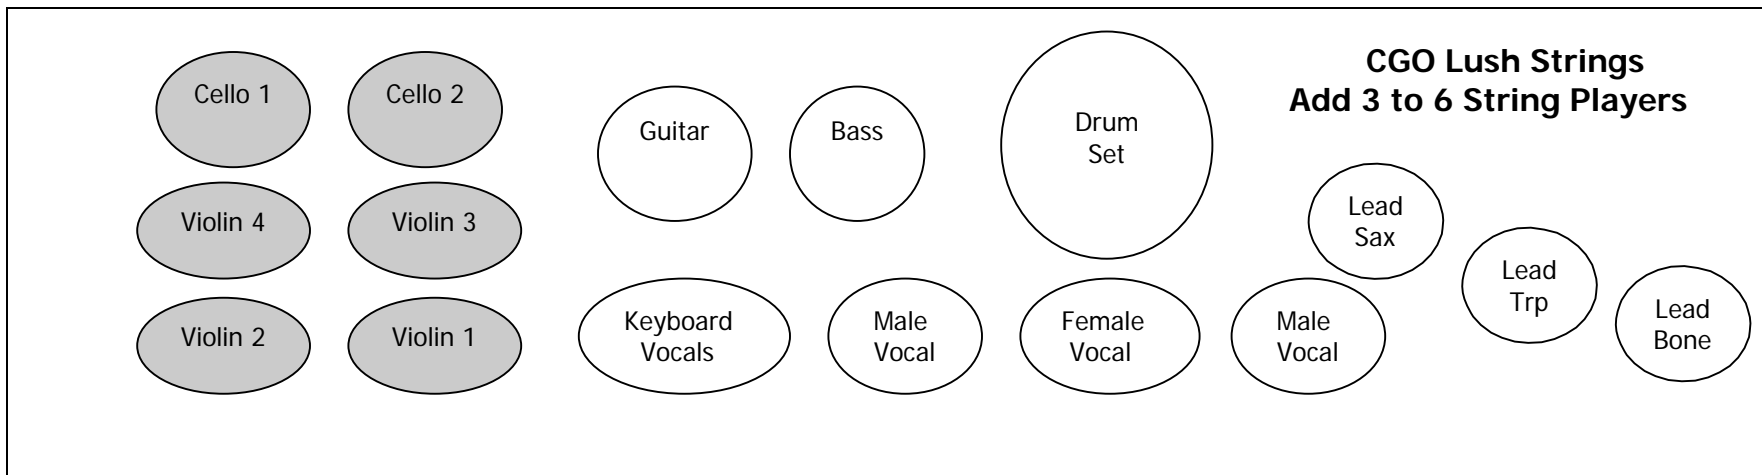

Adding 2nd Trumpet, 2nd Sax and Bass Trombone in addition to the Bari Sax creates a FULL sounding 7-piece horn section with lots **versatility** that kicks everything from Swing to Funk. It’s the full sound of Horns energizing every tune from every era. You’re gonna love it, guaranteed! When the party starts cookin’, watch us **wow** your guests. Sinatra & Brian Setzer tunes will swing big time - Chicago & The Blues Brothers never sounded so Phat. Beyonce and Outkast are pumped up live even more than usual!

ADD THE CGO LUSH STRINGS TO CREATE A REAL DANCE ORCHESTRA:

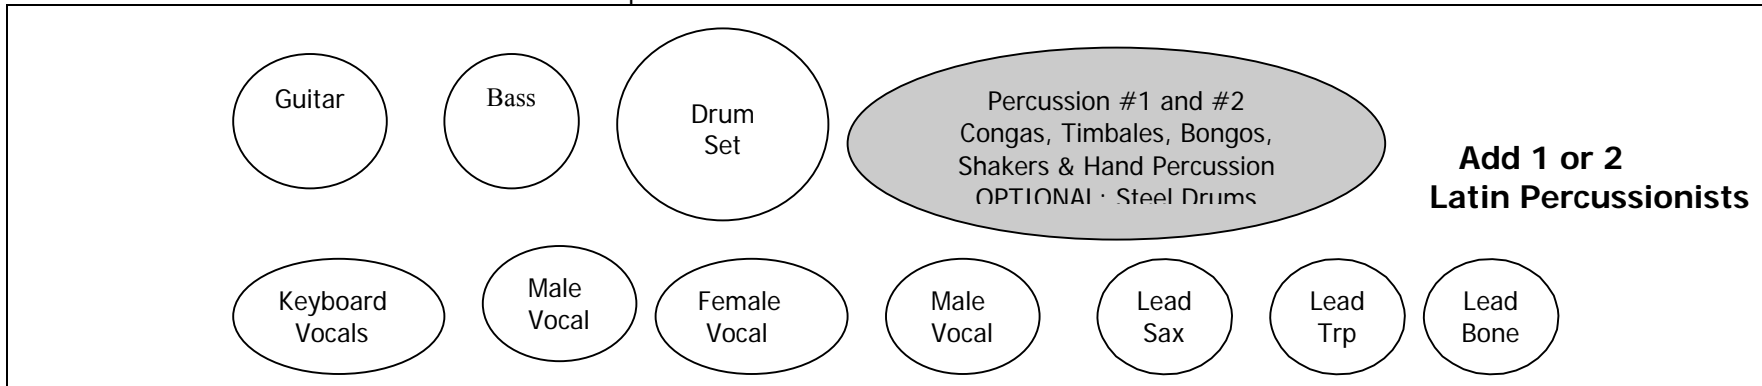

The other side of a very cool coin. 6 Real Live String Players will add a Touch of Class that your guests will talk about **FOREVER**. Guaranteed. When was the last time you attended an affair with a real live string section? ... a real party “Orchestra” with 4 Violins and 2 Cellos as part of a smokin’ dance band? On the rock tunes think Electric Light Orchestra, on the disco party tunes think Barry White and Donna Summer and on the ballads & swing think The Nelson Riddle Orchestra behind Frank Sinatra. The Real Strings make dancing to ballads a beautiful experience and give the party tunes from the 50’s to 2010 the authentic finishing touch. During dinner it’s the Unplugged approach and during the dance sets it’s just plain fabulous. Live Strings spice up every song, regardless of whether it was a hit from Tony Bennett or Dave Matthews.

Plus, Live Strings make a nice touch for your cocktails and/or strolling tableside during dinner.

TURN THE BEAT AROUND WITH OUR SALSA LATIN PERCUSSIONISTS:

HOT !!! That is the word for this. The addition of 1 or 2 Latin Percussionists whose job it is simply to increase the groove is a GREAT idea. It really adds a lot to the power of the rhythm section on every kind of tune from Rock to Swing. In addition to playing Congas, Timbales, Bongos, Shakers and other Hand Percussion, our CGO Percussionists can double on Island Steel Drums if you are partial to Reggae or Cruise music. If you really like to dance and you love strong rhythm, well... **you ain't felt nothin' yet!** ... not until you feel the sound of Live Percussion cookin' up some great rhythm. Enrique Inglesias, Gloria Estefan, Santana, J Lo, The Salsa Kings and The Gypsy Kings and all the 70's disco artists know Latin Percussion is the secret weapon for the ultimate Dance Groove.
